**HOW'S YOUR HEALTH?**

By Dr. W. F. Thompson

If you'd stay well,  
The house fly heed:  
The place to swat  
Is where they breed.

A square meal and a round belly.  
Muscle doesn't a "he man" make,  
nor a "hard-boiled guy" a leader.

With the appearance of song birds  
and hum poetry, spring is assured.

We're painting our houses,  
Repairing our screens,  
For a little precaution  
Means dough in our jeans.

The shoe that gives your foot the fit  
is not the shoe that fits the foot.

Don't put a dirty salve on a clean  
wound nor a clean salve on a dirty  
wound.

Who nurses his wrath to keep it  
warm usually has a spoiled child for  
his pains.

The "skeeter" breeds in old tin cans,  
In stagnant pools and pots and pans.  
And in our cast-off, broken crocks.  
Unless we screen the critters out,  
And put the whole darn brood to rout,  
Our doctor friends will get our rocks.

To get right with health we should  
adjust our internal conditions with  
external relations.

That old health hint, "leave the  
table while yet hungry," is no longer  
a hint; it's an obligation.

**Ford Sets Record  
In Making 7456  
Cars in One Day**

Swinging into its big spring production program, the Ford Motor company on Wednesday, March 12, reached the highest mark in its history when its domestic assembly plants produced a total of 7456 cars and trucks.

This record-breaking figure does not include the daily output of 500 cars and trucks for export, nor the production of the Manchester (England) and Ford of Canada plants, which manufacture most of their own products. The new production record is of especial significance as it indicates the enormous demand being made throughout the country for Ford cars and trucks and the company's endeavor to bring its output up to the point where it will attempt to fill all requirements so as to avoid repetition of the shortage which existed last spring, when thousands of persons were disappointed in not being able to secure delivery of cars.
